

The Medicines Authority
would like to invite you for an information session on

**Legislation and Regulations applicable to Community Pharmacy
Practice, Pharmacy Standards and Pharmacy Inspections**

To be held on Friday 30th April 2010 between 13:30hrs and 15:30hrs at the Mediterranean Conference Centre, Valletta.

This event aims to refresh participants' knowledge on the main regulations governing the community pharmacy practice and highlight the importance of standards to be achieved. By the end of this event, participants will better understand the common shortcomings found during pharmacy inspections and how these could therefore be avoided and be dealt with from a regulatory point of view.

Pharmacy license holders, managing pharmacists and community pharmacists interested to attend should register by sending an e-mail on inspectorate.adm@gov.mt by not later than 25th April, stating the number of people who will be attending and from which pharmacy or organisation, if applicable.
